as at the date of the AGM. As at the date of this announcement, 129,733,404 Shares have been issued pursuant to the General Mandate. Hence, a total of 260,423,396 Shares remain available for issuance under the General Mandate as at the date of this announcement. The allotment and issue of the Placing Shares will fall within the limit of the General Mandate and is not subject to further approval of the Shareholders.

LISTING APPLICATION

Application(s) will be made by the Company to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Placing Shares.

REASONS FOR AND BENEFITS OF THE PLACING AND USE OF PROCEEDS

The Company is a well-established supplier of customised interconnect solutions with over 30 years' experience in the industry. It is principally engaged in the manufacture and sales of cable assembly products, digital cables, copper wire and server products, serving established customers in the telecommunications, data centre, industrial equipment, medical equipment and automotive sectors. The Directors believe that the Placing represents an appropriate opportunity to strengthen the Group's financial position and support its strategic growth initiatives.

The Directors are of the view the Placing will introduce new institutional investors to the Company and broaden its shareholder base, which is expected to enhance the liquidity of the Shares and provide a more diversified platform for the Company's long-term development. The expansion of its capital base will also provide the Group with greater flexibility for future capital markets and acquisition activities. The proceeds from the Placing will further strengthen the Group's balance sheet and enhance its working capital flexibility to support its business expansion efforts. The injection of equity capital will improve the Group's current ratio and provide additional financial resources without incurring the burden of additional interest and financing costs, allowing the Group to optimize its capital structure.

The Placing will provide essential funding to accelerate the Group's overseas expansion strategy. As global demand for its products continues to grow, the proceeds will enable the Group to expand its manufacturing footprint and establish strategic partnerships in key international markets in support of the international business development of the Group. The Company completed the acquisition of DJC Group in December 2025, bringing with it capabilities in vertically integrated copper wire production, a broad Asia Pacific customer base, and manufacturing facilities across China, Thailand, and Vietnam.

The Group has continued to execute its strategic growth initiatives and has experienced additional funding requirements to support its continued business expansion, including the repayment of certain bank borrowings to optimize the Group's debt structure and reduce interest expenses, as well as to pursue strategic investment opportunities that have arisen since the

placing completed in February 2026. For example, the Company entered into an agreement to acquire the remaining 51% equity interest of Time Interconnect Singapore Pte. Ltd. in April 2026 as part of the Group's efforts to establish a presence in Europe and the Americas.

The Directors are of the view that the Placing Price, which was determined after arm's length negotiations with reference to the prevailing market conditions and represents a discount to the recent market prices of the Shares, is consistent with market practice for placings of a similar nature and is necessary to provide an appropriate incentive to the Placees and to ensure the successful completion of the Placing.

The fundraising will support the future execution of strategic acquisitions and investment that are critical to the Group's global expansion plans.

In view of the above, the Directors consider that the terms of the Placing Agreement and the transactions contemplated thereunder (including the Placing and the Placing Price) are fair and reasonable and with reference to the prevailing market conditions. The Placing and the entry into the Placing Agreement are in the interest of the Company and its Shareholders as a whole.

Assuming that all Placing Shares are placed, the gross proceeds from the Placing are expected to be approximately HK\$2,900.0 million, and the net proceeds from the Placing (after deduction of the placing commission in respect of the Placing and other related expenses including, among others, the professional fees) are expected to be approximately HK\$2,884.5 million, representing an estimated net issue price of approximately HK\$20.89 per Placing Share.
